Following a successful year, DIAGNOS Announces a One-Year Agreement in United Arab Emirates with a Major Pharmaceutical Company

Brossard, Quebec, Canada – March 7th, 2018 - DIAGNOS Inc. (“DIAGNOS” or “the Corporation”) (TSX Venture: ADK), (OTCQB: DGNOF), a leader in early detection of critical health issues through the use of its FLAIRE platform based on Artificial Intelligence (AI), announces today a follow-up contract by signing a turnkey one-year screening contract in United Arab Emirates.

So far, DIAGNOS’ healthcare services have been rendered in 16 countries worldwide. During the period covered by the agreement, we estimate that an additional 2,500 patients will be screened in UAE using our CARA platform.

“We are excited to continue our collaboration with this large pharmaceutical company. More and more we, DIAGNOS and our pharmaceutical partner, are working at educating governments around the world to our Wellness Program (CARA) and demonstrating the benefits and cost savings that can be attained from it. We are continuing to implement our growth strategy with our existing pharmaceutical partner,” said Yves-Stéphane Couture, DIAGNOS Vice-President of sales.

About CARA

CARA is a tele-ophthalmology platform that integrates with existing equipment (hardware and software) and processes at the point of care (POC) and comprises: image upload, image enhancement automated pre-screening, grading by a specialist, and referral to a specialist. CARA’s Artificial Intelligence, based on our FLAIRE technology, image enhancement algorithms make standard retinal images sharper, clearer, and easier to read. CARA is accessible securely over the internet, and is compatible with all recognized image formats and brands of fundus cameras, and is EMR compatible. CARA is a cost-effective tool for screening large numbers of patients, in real time and has been approved by regulatory authorities including Health Canada, US Food and Drug Administration, the European Union and others.
